Dear Sir/Madam,

Regarding: ACCOUNT #
Insert street address of service

**NOTICE OF NO CONSENT TO TRESPASS AND SURVEILLANCE
NOTICE OF LIABILITY**

Be advised, you and all other parties are hereby denied consent for installation and use of any and all "Smart Meters" or any other surveillance and activity monitoring device, or devices, at the above property. Installation and use of any surveillance and activity monitoring device that sends and receives communications technology is hereby refused and prohibited. Informed consent is legally required for installation of any surveillance device and any device that will collect and transmit private and personal data to undisclosed and unauthorized parties for undisclosed and unauthorized purposes. Authorisation for sharing of personal and private information may only be given by the originator and subject of that information. That authorisation is hereby denied and refused with regard to the above property and all its occupants.

"Smart Meters" violate the law and cause endangerment to residents by the following factors:

1. They individually identify electrical devices inside the home and record when they are operated causing invasion of privacy.
2. They monitor household activity and occupancy in violation of rights and domestic security.
3. They transmit wireless signals which may be intercepted by unauthorized and unknown parties. Those signals can be used to monitor behaviour and occupancy and they can be used by criminals to aid criminal activity against the occupants.
4. Data about occupant's daily habits and activities are collected, recorded and stored in permanent databases which are accessed by parties not authorized or invited to know and share that private data by those whose activities were recorded.
5. Those with access to the smart meter databases can review a permanent history of household activities complete with calendar and time-of-day metrics to gain a highly invasive and detailed view of the lives of the occupants.
6. Those databases may be shared with, or fall into the hands of criminals, blackmailers, corrupt law enforcement, private hackers of wireless transmissions, power company employees, and other unidentified parties who may act against the interests of the occupants under metered surveillance.
7. "Smart Meters" are, by definition, surveillance devices which violate Federal and State wiretapping laws by recording and storing databases of private and personal activities and behaviours without the consent or knowledge of those people who are monitored.

8. It is possible for example, with analysis of certain "Smart Meter" data, for unauthorised and distant parties to determine medical conditions, sexual activities, physical locations of persons within the home, vacancy patterns and personal information and habits of the occupants.

9. Your company has not adequately disclosed the particular recording and transmission capabilities of the smart meter, or the extent of the data that will be recorded, stored and shared, or the purposes to which the data will and will not be put.

10. Electromagnetic and Radio Frequency energy contamination as emitted by "Smart Meters" is a Class 2 carcinogen according to the World Health Organisation, and has been proven in numerous peer-reviewed scientific studies to cause adverse health and biological effects.

I forbid, refuse and deny consent of any installation and use of any monitoring, eavesdropping, and surveillance devices on my property, my place of residence and my place of occupancy. Any prior implied consent between myself and Essential Energy is hereby revoked.

That applies to and includes "Smart Meters" and surveillance and activity monitoring devices of any and all kinds. Any attempt to install any such device directed at me, other occupants, my property or residence will constitute trespass, stalking, wiretapping and unlawful surveillance and endangerment of health and safety, all prohibited and punishable by law through criminal and civil complaints. All persons, government agencies and private organizations responsible for installing or operating monitoring devices directed at or recording my activities, which I have not specifically authorised in writing, will be fully liable for any violations, intrusions, harm or negative consequences caused or made possible by those devices whether those negative consequences are justified by "law" or not.

This is legal NOTICE. After this delivery the liabilities listed above may not be denied or avoided by parties named and implied in this notice. Civil Servant immunities and protections do not apply to the installation of smart meters due to the criminal violations they represent.

In the event that Essential Energy and/or its contractors and associates install any "Smart Meter" or any other surveillance and activity monitoring device, or devices, at (insert your address), (insert your name) will immediately move (his or her - select one) family away from (insert your town and State) and will send an invoice to Essential Energy for the costs associated with all the losses the (insert your last name) family suffers, included but not limited to losses associated with the property, transportation and procurement costs associated with a new residence and damages associated with emotional stress. When this invoice is ignored, the (insert your last name) Family will seek legal action against Essential Energy for collection.

Notice to Principal is notice to Agent and Notice to Agent is notice to Principal. All rights reserved.
